EXPERIENCE

Programmer Trainee Analyst Intern → Full-Time Employee | Cognizant

April 2025 – Present

- Working in the Java backend domain, focusing on building RESTful microservices and enterprise-level web applications.
- Hands-on experience with Spring Boot, Hibernate, and MVC architecture for scalable backend development.
- Involved in REST API design, security implementation, and database interaction using JPA and MySQL.
- Collaborating with senior developers and testers in Agile teams, ensuring quality and timely delivery.

PROJECTS

Online Education Platform | Angular, REST API, Spring Boot

April 2025

- Engineered a full-featured Learning Management System (LMS) with support for 100+ concurrent users, enabling course creation, enrollment, assignments, quizzes, and user communication.
- Developed 10+ modular microservices using Spring Boot and 20+ RESTful APIs, integrated with MySQL for handling over 50K rows of course and user data.
- Implemented role-based access control and JWT authentication, ensuring secure registration and session management for 1K+ users.
- Built a responsive UI using Angular and FlexLayout, with custom animations to boost user engagement by 20%.
- Designed analytics dashboards to track student performance and learning trends, aiding instructors in decision-making.
- Conducted thorough test coverage (90%+) using Postman and JUnit, and ensured horizontal scalability for thousands of future users.

Customer Relationship Management (CRM) System | Angular, REST API, Spring Boot

June 2025

- Built and deployed a CRM system managing 50K+ customer records, streamlining sales and support workflows for improved operational efficiency.
- Developed 25+ REST APIs and microservices to support CRM modules including profiling, ticketing, and campaign automation.
- Designed secure role-based access and encrypted communication, reducing potential data breach risks by 40%.
- Created dashboards used by 3 internal teams (Sales, Marketing, Support), improving data visibility and team coordination.
- Enabled campaign performance tracking with analytics features, helping marketing teams increase lead conversion by 18%.

TECHNICAL SKILLS

Languages: Java, Python, Spring Boot, JavaScript, TypeScript, Hibernate, SQL, MVC Architecture.

Developer Tools: VS Code, Android Studio, Eclipse IDE, Spring Tool Suits, Postman

Technologies/Frameworks: GitHub, Angular, Angular Material, HTML5, CSS3, Maven, Git.

EXTRACURRICULAR

Blockchain Club

VIT Bhopal University

Member

May 2023 – June 2024

- Coordinated 5+ guest speaker events and seminars, enhancing industry exposure and networking opportunities.
- Coordinated over 4 IoT-based workshops, providing participants with IoT-based industry exposure.

ACHIEVEMENTS

- Solved over 400 data structures and algorithms problems on Leetcode, GeeksForGeeks, and Hackerrank, improving algorithmic proficiency.
- Maintained a consistent 150+ day coding streak on LeetCode and GeeksforGeeks, showcasing commitment to continuous learning and improvement.

CERTIFICATIONS

- NPTEL Elite+Silver Cloud Computing, NPTEL. May 2024
- Google Cloud Computing Foundation, GOOGLE. Dec 2023
- MERN Full Stack, ETHNUS. Nov 2023
- Complete Flutter BootCamp, UDEMY. Feb 2023
